

Give your contractors what they really want...

## The **inside** advantage.

"I no longer worry about callbacks because I have the inside advantage."

Introducing the American Homestead window system by Chelsea Building Products, specifically designed with maintenance-free qualities from the inside out.

### Get the inside advantage:

- Well-defined interior hollows
- Highly crafted, strategically placed walls
- Integral (removable) J-channel
- Removable meeting rail for drywall pass through
- DP-35 rating (upgradeable to DP-50)
- Hidden, universal exterior accessory groove
- Recess channel in sash for weeping water
- Sash does not require pivot bar housing
- Wide, flat exterior with handsome brickmold appearance

Designed and engineered for performance and ease of fabrication—and consistently extruded to Chelsea's high standards—**American Homestead** delivers what you really want: **dependability, performance, and quality.**

Improve your business from the inside out...  
get the inside advantage today.
