

“Driving the winds of change in vinyl windows and doors.”

A pioneering spirit.
Innovative manufacturing and design.
Proven products that build
solid reputations and inspire
genuine success.

That's the hallmark of our 30-year history at Chelsea Building Products, Inc. As a division of the international \$2.4 billion Tessenderlo Group, Chelsea continues building on its reputation by driving the winds of change in the production and distribution of quality extruded vinyl lineal profiles.

As the company that introduced Poly-Tex® vinyl windows into the U.S. market in the mid-70s, we are well known for our product designs and profile extrusion capabilities. And while we're proud of our track record, we're never satisfied. We're constantly exploring new ways to grow our business—and yours.

We understand that we must offer more than innovative designs, proven performance and quality lineals. That's why we've established the **Strategic Partnership Program**—our uncompromising focus on developing strong relationships with fabricators, suppliers and dealers to create a supply-chain partnership that offers the buying power of many to the few.

Regardless of the size of your business, if you are looking to partner with a lineal supplier who will offer exclusive product platforms with protected territories...look no further. Find out how to maximize your buying power by becoming part of Chelsea's Strategic Partnership Program. Contact Les Lundeen, Director of Marketing, today at **800.424.3573 ext. 357**.
